December 2014: Lima. December 2015: Paris. Insiders know:
this is about the negotiations under the United Nations
Framework Convention on Climate Change (UNFCCC) .

Others might wonder: UNFCCC? Paris? What is all the fuss
about? This is a series of discussion meetings, preparing you
for the climate negotiations in Paris in December this year.
The two sessions should enable you to put what you read
and hear in context, learning from experienced people in
the field.
